

COMMONWEALTH OF PUERTO RICO
DEPARTMENT OF THE TREASURY

PROXY SETTINGS

The screenshot shows the '2008 W-2 & Informative Returns Program' interface, Build 100. On the left is a sidebar with 'CopyRight', 'Utilities', and 'Languages'. The main area has a 'Select Data Path:' section with a text box containing 'C:\DH\INFORMATIVAS\Data\2008' and a 'Search' button. Below this is the 'Proxy Settings:' section, which includes a checked checkbox 'Select to activate your proxy settings.' and four input fields: 'Server:' (10.1.2.3:8080), 'User Name:' (MyUser), 'Domain:' (MyDomain), and 'Password:' (masked with dots). A 'Save' button is to the right of the password field. Below the proxy settings is a 'Calculator:' section with an 'Open Calculator' button. At the bottom are four large yellow buttons: 'Open User Manual', 'Create', 'Open', and 'Exit'.

To configure the Proxy Server options, check the box “Select to activate your proxy settings” and enter the following required information:

1. Server – **IP Address** of the proxy server together with the **Port Number**. You must follow this format: [IP Address]:[Port Number]
2. Domain
3. User Name
4. Password – For security purposes the password is stored encrypted.

After completing the required information, you must click **Save** to store the same. Then, you can continue working with the Program.
